

COVID - 19 | SECOND WAVE

OUR INTERVENTIONS

COVID - 19

OUR INTERVENTIONS

ABOUT INFOANALYTICA :

At InfoAnalytica, we understand that we are an integral part of a community beyond our business. Through InfoAnalytica Foundation , our efforts are focused on building sustainable, happy communities. We touch thousands of lives yearly through our interventions in quality education, preventive healthcare, heritage conservation,holistic development and , empowering women. We collaborate with academic institutions , development , and non-profit organizations to attain shared goals.

ABOUT THE AHMEDABAD PROJECT :

The Ahmedabad Project aims to create equitable and empathetic cities across India. As India urbanizes rapidly, cities are expanding but without considering the massive influx of migrants from villages who come to the city for earning a livelihood. Cities are also facing challenges of traffic, garbage disposal, water shortages, and disappearance of the city's green cover. The Ahmedabad Project works through policy engagement with citizens, workshops on governance, policy cafes and fellowships on civic issues. We think our cities will be more livable when enough citizens understand who their ward councillors are, what their corporation does, and how to evaluate and make better policies.

OUR RESPONSE:

With Covid 19 second wave, we re-started our campaign continuing some of the previous year's interventions like distribution of Ration Kits and introduced some new initiatives according to the need of the hour. The second wave came unannounced and was more destructive this time. The challenges were unfamiliar and more advanced. With shortage of oxygen beds to basic medicines, the organization put its best foot forward to accept what the pandemic was offering.

IMMUNITY BOOSTER KIT

We stepped forward in these difficult times with our Doctor prescribed Immunity Booster Kit for free to anyone who is Covid positive and has mild symptoms and also for those who are vulnerable to Covid infections. The real time data says we have distributed around 3,000+ Immunity Booster Kits to the deprived section through a helpline number functioning across 8 cities/towns of Gujarat.

MEAL DISTRIBUTION DRIVE

300+ cooked meals are being distributed to the slums of Ahmedabad through our Community Kitchen initiative where every day packed lunch is being offered to city dwellers of Ahmedabad through the support of our partnered NGOs and volunteers on ground. The real time data says that we have distributed around 3,000+ meals in and around slums of Ahmedabad.

MEDICAL ASSISTANCE (SUBSIDIZED BILLS)

Md.Tofique - A Rickshaw Driver by profession contacted us for medical assistance for his 5 day old child suffering from jaundice since birth. We supported Tofique with financial assistance of 25,000/- and wish to support with more if needed. Tabsunkhatun (child's name) is better now and is shifted to general ward from incubator.
